Exercise #1: SCREENS EVERYWHERE

Opens: Monday, May 4, 2026 @ 9:00 AM
Due: Sunday, May 10, 2026 @ 11:45 PM
*Late penalty: 5% per day

****

ASSIGNMENT INSTRUCTIONS

Sign in to Visible AI. In Visible AI, create a list of the places in your daily environment, where you see 'screens'.

This includes computer screens, television screens, film and video screens, surveillance screens, information screens, and any other type of screen you notice.

In a separate column or paragraph, add the following informatino:

Where do you notice these screens when you're out and about? For example - school, work, on the street or sides or tops of buildings, on the subway, or train, or in the airport, malls, bars or restaurants, in libraries, hospitals, banks, elevators, hotels, etc).

Do you pay attention to them or stop to watch what they're displaying?

Do you rely on them for information or entertainment?

What other purposes do they serve?

GUIDELINES

Your list should be 1-2 pages long (or 125-250 words).

Make sure the list and your comments are legible - use a spelling and grammar check , to make sure the writing is clear.

This is not a research essay – so does not require the use of secondary sources or citations. The list should be based on your own observations and thoughts.

Also take careful note of the section in the course syllabus on 'Plagiarism' and the use of AI. syllabus.
